

BRI UK - IFW AWARDS 2009 FINALISTS

We are proud to announce that BRI UK has been selected as a finalist in two of the judged categories of the International Freighting Weekly (IFW) Awards 2009. This year has seen a record number of entries but the strength of our *Building Reliability* presentation enabled us to stand out as a clear contender for The Customer Care Award, while our submission on the work of the Energy Team led to our being shortlisted for the newly introduced Project/Heavylift Forwarder of the Year Award.

The winners of both categories will be announced on the 15th October 2009.
